

# Small Group Discussion Topics

## Medical practice as a mission

God's call to care for the afflicted, either before, during, or after medical training. Is it here or there or all over the place? Can we compartmentalize or should we seek to integrate our faith?

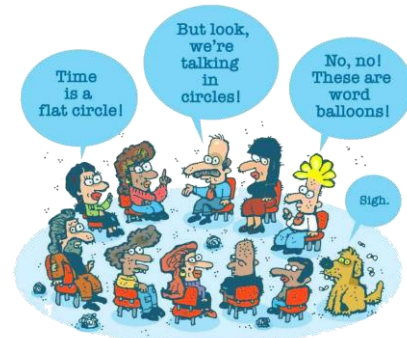

## Prayer with patients

Biopsychosocial medicine with spiritual dimension integrated. What about faith-related inquiry and prayer? What do patients think? When and how should we get involved?

## Serving the poor

Jesus' attitude toward and relationship with those who "we will always have with us" – the poor. What should be our approach? Who, when, where, and how?

## Community outreach

What is community? Who are my neighbors? How can we be more comprehensive in reaching out to those around us in love as we seek to provide professional care in the Name of Jesus?

## Mentoring students

Students are the next generation. What, where, and how can we pass on our skills, expertise, and experience to them? What could they be looking for from people like us? Is there any reward?

## Preparing for retirement

By the Lord's grace we may be retiring in the foreseeable future or have already gotten there. How can we prepare for this time of life? The five F's: Faith, Family, Finances, Fitness, and Fruitfulness.
